# Pharmaceutical lead auditor training

Courses accredited by IRCA (Ref PR330, PR325)

## Take the next step in your career and become internationally recognised as a qualified lead auditor!

Our IRCA-certified pharmaceutical lead auditor courses are industry leading. We've trained hundreds of pharmaceutical professionals, helping them to plan and conduct efficient audits with confidence. Join our next five-day intensive residential/online course today, and gain the knowledge, tools and understanding you need to succeed as a world-class auditor.

## What you will gain

- Confidence in using international-standard audit methods using practical exercises and case study driven audit examples
- An understanding of how to use international quality reference standards that define the scope of your audit and enable you to set a clear audit scope
- Knowledge of how to structure audit plans, present opening and closing meetings, and deliver your audit findings with confidence through our coaching
- Confidence to conduct audits, gaining hands on practice during the course using tried and tested case studies and mock audits

**Our tutors are experienced subject matter experts, so you learn from the best!**
